SKILLS

- Proficient in front-end web technologies: HTML, CSS, JavaScript.
- Experience with web design tools: Figma, Webflow.
- Knowledge of version control with Git and GitHub.
- Strong problem-solving and debugging skills.
- Effective communication and collaboration in cross-functional teams.
- Intermediate proficiency in English (B2 level) for clear communication with international clients and teams.

PROJECTS

Portfolio

- Developed a personal blog website for a fictional character named Ariel Neville, featuring engaging articles and an interactive user interface.
- Implemented responsive design principles, ensuring optimal performance across various devices and screen sizes.
- Utilized HTML, CSS, and JavaScript to create an immersive and user-friendly experience.

Ariel Neville's Blog

- Designed and developed my portfolio website to showcase a collection of my web projects and design work.
- Demonstrated proficiency in creating visually appealing layouts and seamless user interactions.
- Employed Figma for design mockups and Webflow for prototyping responsive web designs.
